

Program for MICCAI DeCaF 2026 workshop
(in conjunction with MICCAI 2026)

08:00-10:00 DeCaF Session 1

08:00-08:10 :: **Introduction and Welcome**

08:10-08:20 :: **Poster Previews** — 1 slide quick intro

08:20-09:00 :: **KEYNOTE 1** — 35 min talk + 5 min Q&A

Making Federated Learning Work in the Real World: Lessons from Deploying Federated nnU-Net for MS Lesion Segmentation Across Hospitals and Pharmaceutical Companies (Evelyn Trautmann, Apheris)

09:00-09:40 :: **KEYNOTE 2** — 35 min talk + 5 min Q&A

Title to be determined (Marco Lorenzi, Université Côte d'Azur)

09:40-10:00 :: **Oral Presentations** — 2 talks, 10 min including Q&A each

09:40-09:50 :: Oral1: Class Prototype Alignment Concentrates Chest X-ray Representations in Federated and Pooled Training

09:50-10:00 :: Oral2: When Average Calibration Fails: Site-Conditional Federated Conformal Risk Control

10:00-10:30 Poster Session & Coffee Break

10:30-12:20 DeCaF Session 2

10:30-11:10 :: **KEYNOTE 3** — 35 min talk + 5 min Q&A

Title to be determined (Javier Fernandez-Marques, Flower Labs)

11:10-12:00 :: **Oral Presentations** — 5 talks, 10 min including Q&A each

11:10-11:20 :: Oral3: Personalized Federated Learning for Equitable Breast Cancer Detection in Underrepresented Pacific Islander Populations

11:20-11:30 :: Oral4: FedCoRe: Target-Adaptive Completion for Missing Modalities in Healthcare Federated Learning

11:30-11:40 :: Oral5: Federated Learning for Brain Arteriovenous Malformation Segmentation: A Feasibility Study Across Four Hospitals and Two Continents

11:40-11:50 :: Oral6: DeMICAF: A Decentralised Medical Imaging Compliance Assessment Framework

11:50-12:00 :: Oral7: Federated LoRA Adaptation of BiomedCLIP Across Four International Chest X-Ray Cohorts

12:00-12:10 :: **NVIDIA Presentation**

12:10-12:20 :: **Closing Remarks**
